

Varya Chair Collection

INCLASS

DESIGN Simon Pengelly
Inclass, Italy

The Varya collection comprises an extensive range of chairs, armchairs, stools and benches. The seat shell is available in moulded thermoplastic in twelve colours and also upholstered in three variants. The collection is generated by combining comfortable seats and different metallic or timber bases.

The broad selection of base variants, together with the extensive range of available finishes, allows for endless customisation possibilities without altering the unique character and timeless spirit of these original chairs. Designed to inhabit diverse settings, Varya is perfect for residential applications right through to workplaces and heavy contract use.

The Varya chair is available with the following base options; 4 Leg (metal and timber), Sled, 4-Way Swivel and 4-Way on castors. Beam seating and a stool collection is also available. All chairs are available with or without arms, and in selected house colours or finishes.

Varya Materials & Finishes

POLYPROPYLENE SHELL:	Polypropylene shell reinforced with fibreglass, available in a selection of 12 house colours with a matt non-slip texture on both sides. Custom colours are available at an additional cost.
TIMBER SHELL:	Timber, ergonomic monoshell made from bentwood and finished with Beech or Oak veneer stained or lacquered to house colour.
FIXED SEAT PAD UPHOLSTERY:	Inner seat made of polypropylene covered in 15mm thick high-resilience flexible CMHR polyurethane foam, with a foam density of 35kg, then upholstered in house fabric/leather or COM/COL. Seat pad is screw fixed to shell.
SOFT SEAT CUSHION:	Inner seat made of polypropylene covered in soft polyester hollow fibre. The cushion cover has a zipper to allow removal for maintenance. The cushion is not attached to the seat but there is the possibility of securing it with Velcro.
UPHOLSTERY:	Shell covered with 15mm thick high density, high resilience CMHR polyurethane FR foam and fully upholstered in house fabric/leather or COM/COL.
4 LEG FRAME:	16mm steel tube, in chrome or powdercoated to selected house colour.
SLED FRAME:	12mm solid steel rod, in chrome or powdercoated to selected house colour.
CANTILEVER:	22mm double core steel tube, in chrome or powdercoated to selected house colour.
4-WAY SWIVEL:	Made from 18mm reinforced steel tube OR cast aluminium alloy, polished or powdercoated to selected house colour.
4-WAY CASTOR:	Cast aluminium alloy, polished or powdercoated to selected house colour, fitted with 4 double soft-tread, 65mm, self-braking castors.
4-LEG CASTOR:	18mm steel tube, in chrome or powdercoated to selected house colour, fitted with 4 double soft-tread, 65mm, self-braking castors.
TIMBER 4 LEG:	Inner steel structure with solid Oak timber surround, 35mm diameter, finished to selected house colour.
GLIDES:	Standard self leveling plastic glides or optional felt glides suitable for hard or delicate surfaces. Timber 4 Leg comes with standard felt pads. Sled base comes with plastic glides, fixed to the structure with screws to prevent them from detaching.
