

Accursio

DESIGN ANTONINO SCIORTINO
LACIVIDINA, ITALY

Accursio is a collection of wire framed steel tables with light cruciform bases that contrast with the solidity of the construction materials. As a result, the range is light and airy while also offering stability and solidity.

The Accursio collection is available in numerous sizes and in round, square and rectangular shapes with heights ranging from 350mm to 850mmH. They can be matched in original combinations or in groups to create decorative or supportive islands and plinths.
