DESIGN THAM & VIDEGÅRD
WÄSTBERG, SWEDEN

Alma, designed by Swedish design duo Tham & Videgård for Wästberg+, is an elegant pendant that combines simplicity with refined design. With its organic form and soft, sculptural lines, Alma introduces warmth and sophistication to both residential and commercial interiors.

Crafted with careful attention to detail, it features a concave shade that gently diffuses light, creating a soft, ambient glow.

Its minimalist form and balanced proportions make it highly versatile, allowing it to sit comfortably within a range of interior styles, from dining rooms and living spaces to hospitality environments.

The timeless character of Alma ensures it functions not only as a lighting solution but also as a quietly distinctive design piece, bringing atmosphere and clarity to the interior.
