WARRANTY

3 Year Structural

Aloa is a refined family of chairs and bar stools featuring an upholstered seat and backrest supported by a graphic metal frame. Designed with comfort at its core, the collection is equally at home around a dining table, within hospitality settings or in meeting spaces.

Designed by Khodi Feiz, Aloa draws inspiration from the interplay between soft upholstery and a sculptural metal frame. The pressed metal backrest nestles into the supportive upholstered cushion, creating a distinctive visual relationship that expresses both structure and comfort. The back support cradles the backrest, while the chair itself gently supports the user.

Composed of a minimal number of elements, Aloa conveys a sense of lightness and timelessness. The balance between upholstery and frame allows the collection to complement a broad range of interior styles, while an extensive selection of upholstery and powder coat finishes provides ample opportunity for personalisation.
