DESIGN DIRK WINKEL
WÄSTBERG, SWEDEN

Alto, designed by Berlin-based Dirk Winkel for Wästberg+, is a sophisticated lighting fixture that combines modern elegance with functional design. With its sculptural form and refined materials, Alto brings a striking yet considered presence to contemporary interiors.

Crafted with precision, it features a gently curved shade that diffuses light into a soft, ambient glow.

The design is complemented by a solid brass frame, introducing warmth and subtle richness while maintaining a restrained, minimalist silhouette. This allows Alto to integrate seamlessly across a range of settings, from dining areas and living rooms to workplaces.

Designed to create a calm, balanced atmosphere, Alto provides comfortable illumination suited to both residential and commercial environments. Its timeless design ensures it remains a quietly distinctive piece for years to come.
