DESIGN CANTARUTTI STUDIO
CANTARUTTI, ITALY

The Arco collection was born from a study of carefully calibrated shapes, proportions and dimensions. Available as a chair, armchair and stool, it is distinguished by the curved backrest, which rises from the seat profile, maintaining a perfect harmony. A complex process that makes it simultaneously light, ergonomic and solid.

The possibility of padding the back and seat adds comfort and a touch of refinement. Simple but with great personality, the Arco chair is stackable, and particularly suitable for situations that call for a distinctive style without sacrificing practicality.
