

Beam

DESALTO

DESIGN MARIO FERRARINI
DESALTO, ITALY

Design emphasises shapes, materials and technology. Beam, enhances the symbolic value of a table, thanks to its lightness, almost suspended top, held to the ground by its geometric legs.

Available as a fixed or extendable table with a steel and aluminium frame at its core. Top and extendable leafs available in veneer, Fenix or laminate. Extruded aluminium legs, powdercoated or finished with timber veneer, with a contrasting powdercoated central beam.

LEADTIME

12-14 Weeks

WARRANTY

3 Year Structural

CERTIFICATION

100% recyclable
ISO14001
