

Bras

DESIGN KHODI FEIZ
UPHOLSTERY, NETHERLANDS

Bras invites users to settle in and enjoy exceptional comfort. Designed to embrace the body, it offers a relaxing experience whether reclining, unwinding at the end of the day, or sitting comfortably in a cosy corner. With its sleek silhouette and thoughtful design details, Bras brings both elegance and ease to contemporary interiors.

A defining feature of Bras collection is its distinctive curved armrests, designed by Khodi Feiz and inspired by the natural shape of the human arm when resting. Rather than forming a rigid right angle, the armrest follows the gentle curve created by the movement of the joints, creating an inviting and supportive place to relax. The rounded corners also encourage comfortable conversation, allowing people to sit facing one another with ease.

Bras collection includes 3-seater, 2.5-seater and 2-seater lounge options, offering flexibility for a range of living spaces. The collection is complemented by the Bras Easy Chair, Bras Highback Armchair and Bras Footstool, creating a complete seating range designed around comfort, connection and timeless style.
