

C1

COLOS

DESIGN FABIAN SCHWAERZLER
COLOS, ITALY

The C1 collection features a straightforward, minimalist design that brings a modern touch to any space. Its lightweight yet sturdy tubular metal frame provides a slender appearance without compromising durability, making it suitable for both indoor and outdoor use.

With clean, sleek lines, the C1 fits seamlessly into public spaces like bars, restaurants, canteens, study halls, and waiting rooms. Its easy portability makes it an ideal choice for environments where seating arrangements frequently change, such as community centres and gyms.

Available in two designs. The first features a solid sheet metal seat and back, while the second, lighter version includes cut-out slots in the seat and back for a more airy aesthetic. It is offered in a selection of seven colours, ensuring a match for various interior and exterior styles.
