**DESIGN** SYLVAIN WILLENZ  
ARRMET, ITALY

Sylvain Willenz has designed the first Arrmet brand collection of large upholstered items, a family of four ottomans whose shape was inspired by the cep mushroom. The extremely simple Cèpe ottomans comprise just a stem and caps in increasing diameters.

Available in four sizes, these versatile ottomans convert into surface space or informal seating elements, depending on the setting in which they are used. The archetypal shape of Cèpe also offers a practical advantage: the slightly recessed base ensures that even the palest of fabrics stay clean longer.
