

Chaise Longue

DESIGN GEOFFREY HARCOURT RDI
ARTIFORT, NETHERLANDS

Countless designers have drawn inspiration from the concept of the chaise longue. C248 Chaise Longue, designed by Geoffrey D. Harcourt RDI in 1970, represents his distinctive interpretation of this iconic form. Designed as the perfect place to stretch out and unwind, it has become a statement piece in modern interiors and is also known as the Cleopatra.

Chaise Longue, also recognised as Artifort Cleopatra, features a powerful organic silhouette shaped around the natural contours of the human body. Its sculptural form creates an inviting and supportive seating experience, combining visual impact with exceptional comfort.

C248 integrates effortlessly with other Artifort designs and serves as a striking feature in residential interiors, hotel lobbies and lounge environments. A true design statement, it continues to reflect Harcourt’s innovative approach to form, function and human-centred design.
