Similar to a cricket's chirp, humans converse at different rates depending on the temperature of their environment. This modern patio dining chair is designed to warm up the environment, aesthetically speaking, and induce social interaction. As well as being a conversation aid, the simple seat and back angles are comfortable to sit at for extended periods.

Constructed from 100 percent recycled HDPE, the Cricket chair offers unparalleled durability in modern outdoor furniture while requiring no maintenance, ever. The Cricket Chair is available with a slotted or solid back.
