

Cuba 4-Leg

DESIGN MARCSADLER
ET AL. HOUSE FABRICS, ITALY

Simple and sober lines give the Cuba seating range a universal appeal. Attention to detail and technological innovation were paramount in the development of the Cuba chair. The narrow radius of curvature and unique metal folding technique of the framework, that twists and turns around the seat, has produced a highly distinctive and very personal design characteristic.

The Cuba seating collection includes a chair and armchair version as well as a stool, available in both counter and bar heights. Cuba is suitable for use both indoors and out and is offered in a wide range of colours. Optional seat pad upholstery is also available on all variations.
