Inspired by the organic form of water droplets, each piece can be paired together to create dynamic and unique configurations. Designed by Gabriele Panciera, the collection features a metal frame with a hinged top that opens to reveal storage space. The tops are available in various materials, including fabric, leather, faux leather, metal, ceramic, or veneered wood, allowing for customization to suit different aesthetics. The base can be equipped with fixed glides or wheels, providing flexibility in mobility. The Drop collection is designed to fit seamlessly into corners, optimizing space utilization.
