

Entropy

INCLASS

DESIGN CHRISTOPHE PILLET
INCLASS, ITALY

Entropy is a collection of modular sofas that operates as a play of geometries, allowing for countless compositions to be formed and adapted to the most diverse spaces.

The broad range of elements and accessories combined with the design of the modules allows for endless configurations that will transform traditional waiting areas into new collaborative spaces for interaction. Spaces in which to hold meetings, informally work in a team or simply take a break.

The Entropy collection offers a wide range of seating modules, backrests, armrests and privacy panels in different sizes, shapes and heights which can be used freely or combined to adapt to the needs of the waiting spaces and lounge areas in public buildings, offices and hotels.
