

Escalas

INCLASS

DESIGN INCLASS STUDIO
INCLASS, SPAIN

Escala is a very flexible, elegant and cosy modular sofa that originates in the combination of different upholstered elements and accessories with sleek horizontal platforms in an aluminium profile. The result is a highly customisable collection of sofas that stands out for its visual lightness, refined shape and timeless design. The geometry and precise proportions, together with the broad range of elements available, allow for endless configurations to facilitate their integration in different contexts and settings both in public and private spaces.
