

Essens Elliptical

INCLASS

DESIGN JONATHAN PRESTWICH
INCLASS, SPAIN

Designed by Jonathan Prestwich, the Essens table base collection from Inclass, Spain combines versatility, beauty and harmonious proportions — perfectly balancing two sculptural volumes. Highly transversal, the Essens family of table bases includes six different shapes and sizes, allowing specifiers to compose tables in an endless variety of formats.

Essens can cleverly conceal cable management and suit just about any top dimension or surface. Being made of 100% recyclable polyethylene extends the use of Essens to the outdoors.

Essens forms an important part of ownworld's European Stock Program, with a large assortment of solid colours and forms available for immediate dispatch. To further satisfy short leadtimes, ownworld can manufacture any custom table top requirement locally for soonest turnaround.

LEADTIME

From Stock (or 12 Weeks)

WARRANTY

3 Year Structural
