

F506

DESIGN GEOFFREY HARCOURT RDI
UPHOLSTERY, NETHERLANDS

Inspired by modernist aesthetics, the mid-sized F506 armchair combines flowing curves with sleek lines to create a generous and inviting contemporary seating experience.

Defined by its ergonomic silhouette, exceptional craftsmanship and distinctive horizontal channelling, this elegant swivel chair brings a refined sense of style and sophistication to any interior. Designed for both comfort and visual impact, F506 transforms spaces into considered environments for relaxation and connection.

Recognising the enduring appeal of this iconic design, Artifort returned F506 to production in 2024 with a subtle modification to its steel base, preserving its timeless character while enhancing its contemporary presence.
