DESIGN DAVID CHIPPERFIELD
WÄSTBERG, SWEDEN

Faro, designed by David Chipperfield for Wästberg+, is a refined portable lamp that blends timeless design with modern functionality. Inspired by classic lanterns, Faro's minimalist form and careful craftsmanship make it a practical and elegant lighting solution.

With its rechargeable design and softly diffused light, Faro creates atmosphere across both indoor and outdoor settings.

Whether placed on a dining table, a bedside, or carried outside for an evening setting, it provides warm, glare-free illumination wherever it is needed.

Balancing elegance with adaptability, Faro allows light to move effortlessly through different environments while maintaining a calm, contemporary presence.
