

DESIGN RAMOS BASSOLS
CRASSEVIG, ITALY

As thin as a sheet of paper, and exuding essential comfort, the distinctive nature of the Finna chair becomes immediately apparent, featuring a delicate profile and drawing inspiration from Nordic minimalism. The designers faced the ultimate challenge of achieving armchair-like comfort using an exceptionally thin layer of recycled plastic, crafting it much like working with a sheet of paper. The shell, devoid of folds, boasts a gently curving perimeter free of sharp angles, assuring natural ergonomics and a sensation of weightlessness.

LEADTIME

12-14 Weeks

WARRANTY

3 Year Structural

CERTIFICATION

CATAS Certification
FSC Certification
ISO 9001:2008
ISO 14001:2004
Product Stewardship Programme
