

Horizon

DESIGN CANE-LINE DESIGN
CANE-LINE, DENMARK

The Horizon Modular Lounge, is designed by the Cane-line design team. Horizon is a lounge concept based on a Scandinavian design, focusing on high comfort and flexibility. Horizon is manufactured in the weather-resistant Cane-line Weave® and with QuickDryFoam cushions. Cane-line QuickDry & AirFlow system is a special technique for increased comfort. After a rain-shower, the cushions are dry again after approx. 1 hour, and ventilates in areas with high humidity. The narrow steel frame contributes with a slightly floating expression, which together with the woven seat forms an elegant frame. Seat and cushions are made from the soft and comfortable Cane-line Natté fabric, which makes Horizon the perfect place for relaxation and reflection.
