DESIGN DIRK WINKEL
WÄSTBERG, SWEDEN

Ion, designed by Berlin-based Dirk Winkel for Wästberg+, is a striking series of lighting fixtures that combines modern design with functional innovation. Inspired by natural forms, Ion brings both visual clarity and effective illumination to a range of interior settings.

Crafted from high-quality materials, each piece is defined by a minimal yet confident aesthetic.

The range includes task and wall lights, each with a distinctive form that delivers soft, ambient light while drawing attention through its sculptural presence.

Whether used individually or arranged together, Ion introduces character and quiet sophistication to an interior. With its clean lines and balanced proportions, the series integrates comfortably into modern environments, from living spaces and workplaces to hospitality settings.
