

Kira

CRASSEVIG

DESIGN MARIO FERRARINI
CRASSEVIG, ITALY

Taking inspiration from the trestle base of traditional school chairs, Kira offers a solution that exhibits a natural interplay between technical and aesthetic aspects. The external trestle ensures the chair's perfect stackability and reduces its overall volume to a minimum. Kira is suitable for many different markets thanks to its technical and aesthetic features, as well as its numerous finish and upholstery options.

Kira's is constructed from solid timber, further enhancing its stability, while the seat and backrest are available in veneer or with an upholstered seat. Kira is perfectly suited for dining areas and communal spaces.
