

## Laminar

INCLASS

**DESIGN** INCLASS STUDIO  
INCLASS, SPAIN

Laminar is a versatile system of tables whose formal identity is characterised by a refined, elegant and timeless design, capable of integrating perfectly into various work, contract or domestic spaces and contexts. The elegant structure of the tables, entirely made of aluminum, identifies the aesthetics of this collection that combines minimalism, lightness and resistance. The tables can be manufactured in three heights.

The structure is available in a wide selection of sizes and colors. The tabletops are available in a wide selection of formats, materials and finishes, to facilitate their integration into different environments. The table system includes intermediate legs that allow tables to be configured by sections of infinite size. The collection is completed with a wide range of accessories, cut-outs and top access elements that allow optimal functionality. Environmental factors have been taken into account in the design of the collection. For this reason, the materials used are 100% recyclable and the tables are easily disassembled to allow their correct recycling at the end of their useful life.

### LEADTIME

12-14 Weeks

### WARRANTY

3 Year Structural

### CERTIFICATION

UNE EN 13761  
AIDIMA Quality Control Label  
ISO 9001:2008  
ISO 14001:2004  
Product Stewardship Programme
