

## Lapse

## INCLASS

**DESIGN** CARLOS TISCAR  
INCLASS, SPAIN

Lapse is a comprehensive modular system that transcends the classic seating concept for waiting areas. The broad range of elements and accessories combined with the design of the modules allows for endless configurations that will transform traditional waiting areas into new collaborative spaces for interaction. Spaces in which to hold meetings, informally work in a team or simply take a break.

The collection offers a wide range of seating modules, side units, connectivity accessories and privacy panels that can be combined to adapt to the needs of the waiting spaces and lounge areas in public buildings, offices and hotels.
