

Leon

DESIGN OWNWORLD
OWNWORLD, AUSTRALIA

Leon is a lounge collection by ownworld, balancing crisp architectural lines with a softer, more relaxed expression. Defined by its slim profile, generous cushioning and elevated frame, Leon feels light in appearance while offering a high level of comfort.

Manufactured in Australia, Leon is constructed using premium materials and carefully considered detailing to ensure lasting comfort, support and durability. The structured outer frame contrasts with the softness of the seat and back cushions, creating a collection that feels both tailored and inviting.

Available in lounge chair, two-seater and larger lounge configurations, Leon can be upholstered in a wide range of fabrics and leathers to suit different interior settings.
