

Lilla 2.0

DESIGN PATRICK NORGUET
ARTIFORT, NETHERLANDS

Lilla is a versatile little stool introduced by Artifort in 2006, designed to bring colour, character and a sense of playfulness to both residential and workplace environments. Compact yet highly practical, Lilla provides an effortless extra seating solution when additional chairs are needed, whether for unexpected dinner guests, conference meetings or creative sessions.

With its cheerful presence and adaptable design, Lilla is equally suited to enhancing waiting rooms, reception areas and informal gathering spaces. Its compact form allows it to be easily integrated into a wide range of interiors while adding a distinctive touch of personality.

Lilla 2.0 introduces a refreshed look with a carefully curated selection of fabrics and the addition of an integrated carrying handle, enhancing both its functionality and portability. This updated version continues to deliver the perfect balance of practicality, colour and contemporary design.
