

Link Edu

FORNASARIG

DESIGN LUCA FORNASARIG
FORNASARIG, ITALY

The Link Edu Desk is the ultimate synthesis between an independent desk and portability. The design is elegant and rational and is perfectly suited to both educational and commercial environments.

Link Edu's greatest feature is its lightness, achieved through the combination of a high-performance tube frame, durable multilayer bent plywood top with an additional HPL coating. Link Edu is designed to be robust and take everyday bumps, allowing it to remain beautiful for the years ahead.

A modesty panel and backpack hooks are built into the design with the option to include a book shelf for additional storage. The gently curved front edge reduces wrist and forearm strain — allowing both hands and shoulders relaxed.

Link Edu stacks 30 high on a trolley and is supported by a 3 year structural warranty.

LEADTIME

12-14 Weeks

WARRANTY

3 Year Structural

CERTIFICATION

CATAS Certification
FSC Certification
