

Loria Sled

Advanta

DESIGN JUN YASUMOTO
ADVANTA, AUSTRALIA

Loria is a new collection that combines contemporary design with exceptional craftsmanship. It has a monoshell form and comes in a captivating colour palette. The sleek lines of Loria exude sophistication. It can be used in various workplace settings, enhancing any space with its captivating presence.

Loria is an Italian collection by French designer Jun Yasumoto. Born in Tokyo and now living in Paris, France. Jun Yasumoto designed the Loria collection as a commercial furniture solution for a wide variety of contexts and uses.

The collection includes interchangeable shells and structures, which can be customised in terms of colours and finishes. The shell of the chair, armchair and stool is made of glass fibre reinforced polypropylene, thus obtaining the perfect mix of lightness and durability.

During the production processes, maximum attention is paid to reducing the consumption of raw materials, rationalising resources, reusing and/or recycling waste, and controlling emissions. Making durable products, both aesthetically and in terms of resistance, is the key element in guaranteeing sustainability.

The Loria collection is made from high quality, recyclable and environmentally friendly

LEADTIME

6-10 Weeks

WARRANTY

10 Year structural

raw materials. The colour 'Sand ECO' is made of polypropylene recycled 50% from post consumer plastic waste and 50% from post industrial plastic waste. The post consumer plastic waste comes from products previously used by consumers, such as plastic bottles or food packaging. The industrial component comes from waste plastics, containers and plastic films.
