

Moulin

Artifort

DESIGN PIERRE PAULIN
ARTIFORT, NETHERLANDS

Designed by Pierre Paulin in the late 1950s, the Moulin chair family reflects his early exploration of elegant, minimalist seating. The addition of the Moulin Bar Stool builds on this enduring design language, combining a slender metal frame with a carefully proportioned upholstered seat to deliver understated sophistication and exceptional comfort in an elevated form.

Available in three seat heights (61, 71 and 81 cm), the Moulin Bar Stool honours its rich design heritage while adapting seamlessly to contemporary interiors. Offered in a wide selection of premium fabrics and leathers, it is ideally suited to kitchen islands, breakfast bars, high tables and hospitality environments. Blending simplicity, comfort and timeless elegance, the Moulin Bar Stool is a versatile addition to both residential and commercial spaces.
