

Nap

laCividina

DESIGN ANDREA STEIDL
LACIVIDINA, ITALY

As its name and inviting form would suggest, Nap presents a fresh take on traditional pillow top sofas, designed to evoke the idea of restfulness. This smart and versatile lounging collection consists of a series of cosy modules that can be arranged in an endless number of compositions, to suit any requirement.

Nap showcases LaCividina's outstanding craftsmanship. The vertical piping and horizontal darts are designed to give a plump appearance and highlight the softness of the pillow-like elements of the seat. This masterful seam-work results in a snug and sumptuous finish while extra comfort is added with the optional lumbar support cushion, which can be attached to the backrest by a concealed zip.

Thanks to the sartorial elegance of the covers and the soft padding, Nap is ideally suited to both contract and residential spaces. The finishing options available are just as welcoming as the shapes, with a wide range of colours and covers on offer.
