

Orange Slice

DESIGN PIERRE PAULIN
METAL, NETHERLANDS

Composed of two identical elements reminiscent of slices of an orange, Orange Slice® by Pierre Paulin features one curved form creating the seat and the other forming the backrest and armrests. Positioned on an elegant steel frame, this iconic armchair is a celebrated Artifort classic that continues to captivate more than sixty-five years after its creation.

With its distinctive sculptural form and playful character, Orange Slice® brings a sense of openness, lightness and warmth to any interior. Its expressive design creates a cheerful presence while maintaining the comfort and refinement expected of a timeless piece.

Available in a wide selection of premium upholstery options and offered in two seat heights, Orange Slice® provides versatile styling possibilities for both contemporary and classic environments.
