

Piana

DESIGN LUCIDIPEVERE ARRMET, ITALY

The Piana table collection has been designed to celebrate the material wholeheartedly, flouting the usual construction logic that involves applying different materials to the top and base of a table structure. Exploring the theme of materiality, colours and finishes extend throughout the entire structure, from the horizontal top to the vertical support, resulting in an object that is integral and solid with an almost totally mono-material look.

Piana tables are available in various sizes and shapes and are supported by steel 4-star or trestle frames. A versatile product, PianaÕs aesthetic changes dramatically depending on the shape and finish chosen. The round marble table conveys a vaguely retro style while the rectangular marble option, takes on a more classic, majestic appearance. Wood offers warmth to the versions that favour this material, while the combination of steel and HPL creates a simple, linear table, ideal for the workplace.
