DESIGN NIELS BENDTSEN
BENSEN, CANADA

The Radii benches are an addition to the Radii Table collection. Together they create the most essential and simple of dining setting, although they are equally appropriate for use in hallways, waiting rooms, galleries, bedrooms, or even as a coffee table.

The benches feature the same signature detail as the tables — a thin beveled edge that cleverly flows through radius cuts, to blend with the legs gracefully. This sculptural detail gives visual lightness, while emphasising the mass and durability of the bench. The beauty and substantial feel of the thick solid timber material add to the sense of luxury and the overall simplicity.
