

RC Wood

DESIGN FRANCESC RIFE
BLASCO&VILA, SPAIN

The RC Wood Collection is rational in its design. A generously proportioned seat rests on a visible timber structure, the signature expression of the collection. RC Timber is designed with no superfluous details, constructed from solid Ash timber and finished with soft upholstery to embrace the user.

The extensive collection by Francesc Rifé offers a range of typologies including a chair, armchair, stool, lounges, with a complimentary table and ottoman.
