

Rebus

DESALTO

DESIGN FRANCESCO ROTA
DESALTO, ITALY

The Rebus library consists of a series of modules that can be combined in an infinite number of configurations. These small freestanding bookshelves and storage units are designed to furnish spaces either on their own or in combination with seating and sofas.

In this project, metal serves as the focal point and distinctive element. A 3mm thick sheet twists through space to form square, rectangular, L, and Z shapes that perfectly fit together.

LEADTIME

12-14 Weeks

WARRANTY

3 Year Structural

CERTIFICATION

ISO 9001:2015
