

Retreat Workshop

DESIGN VIDAK STUDIO
NEW ZEALAND

Retreat Focus is a versatile range of free-standing booths which support agile work. Soft, upholstered walls create a quiet and comfortable “retreat” in open-plan offices where you can break away from the noise to get work done. This in turn helps support health and wellbeing in the workplace. Available in a variety of configurations and fabrics to fit your space or reinforce your company brand.

As a modular system, each booth is made from a wide-ranging kit of parts. Panels clip together using our unique hidden connection system, which allows future reconfiguration if required. Upholstered wall panels combine with tables, worktops and seating to offer a cost-effective, flexible alternative to permanent meeting or quiet rooms.
