DESIGN STRAND+HVASS
OCEE & FOUR DESIGN METAL FINISHES, DENMARK

Share is a versatile collection of stools and benches designed to support the informal moments that shape contemporary workplace environments. With a refined oak construction, softly moulded seats and a calm Nordic character, the collection brings warmth and ease to breakout spaces, cafés, meeting points and communal areas.

Available across stool and bench formats, Share encourages relaxed gathering, quick conversations and moments of pause throughout the day. Its simple profile and restrained detailing allow it to sit comfortably within a range of interiors, while the natural timber finish introduces a softer, more tactile quality to shared spaces.

Designed to be both practical and quietly expressive, Share supports flexible ways of working without overwhelming the room.
