

## Soave

## laCividina

**DESIGN** SEBASTIAN HERKNER  
LACIVIDINA, ITALY

Soave is a range of armchairs and sofas available in numerous configurations all sharing a common design trait of limited depth, making them the ideal solution for public lobbies and reception areas. The repeated use of an elliptical shape is a distinguishing feature of this collection. Layered rounded forms create a base and a seat with a discrete curved enveloping backrest.

Understated metal legs emphasise the overall lightness of the Soave collection. The matching coffee table, which features the same soft form, looks like it is simply floating on the frame. Complemented by the optional support table, Soave is perfect for all uses in the contract market.
