

Soft Facet

DESIGN SCHOLTEN & BAIJINGS
METAL, NETHERLANDS

Soft Facet is a comfortable and inviting lounge armchair defined by its distinctive detailing and refined craftsmanship. Its open, welcoming form creates the feeling of a soft embrace, with a geometrically stitched upholstered surface that invites users to sit back, relax and unwind.

The comfort of Soft Facet is enhanced by the fully foam-padded contour of the wooden shell, which gently supports the body, neck and head while adapting naturally to the sitter's posture. This thoughtful construction delivers a relaxed and supportive seating experience for extended periods of use.

A standout design detail is the saddle leather belt connecting the front and rear legs, adding a touch of character to the chair's clean and minimal aesthetic. With its fresh, timeless design, Soft Facet complements a wide range of interiors, from contemporary workspaces to residential environments.

Whether reading a book, enjoying conversation with friends or colleagues, or working comfortably with a laptop, Soft Facet provides an elegant and supportive place to relax, focus and recharge.
