

Swamp

DESIGN MICHIEL VANDER KLEY
ARTIFORT, NETHERLANDS

Allow yourself a moment of complete relaxation with Swamp, a generously upholstered fauteuil designed to envelop the body in comfort. Its seat and backrest appear to sink into the depths of the design, creating a sensation of being gently surrounded by a warm and welcoming embrace.

With its inviting form and exceptional comfort, Swamp encourages users to unwind, settle in and let go of the demands of everyday life. The soft, enveloping silhouette creates a private retreat for moments of rest and relaxation.

Swamp is available in two versions to suit different spaces and needs. Swamp R is designed as a comfortable single-seat fauteuil, while Swamp XL offers a more generous configuration, perfect as a cosy loveseat for shared relaxation.
