Sys

DESIGN   MC.DSG
INFINITI, ITALY

Sys was born as a modular lounge full of configuration which can be tailored to suit waiting, meeting and shared spaces. Thanks to an extremely quick and intuitive fastening system, it is possible to disassemble, move and reconfigure, to suit the needs of the moment.

Sys is made with a powdercoated steel frame, which creates a housing for modules to be inserted. The seats formed in fire-retardant foam, with the option of accessories such as tables and armrests. Power, wireless and USB sockets can also be set into the tables, allowing for further connection.

LEADTIME

12–14 Weeks

WARRANTY

3 Year Structural

CERTIFICATION

CATAS Certification
Product Stewardship Programme
