

Ta Bar

COLOS

DESIGN JEREMIAH FERRARESE
COLOS, ITALY

The TA tables are instantly recognisable, thanks to their distinctive tubular steel frame. One of the standout features of this product is its customisation options, which truly set it apart. Customers can choose from various colours, as well as square or round tops made from turned steel, laminate (HPL), or melamine facing (available upon request), along with different top sizes.

Additionally, the table's top can be tilted for horizontal stacking, maximising space efficiency when needed. This thoughtful design makes the TA tables a functional and stylish choice for any setting.
