

## Trestle

arco

**DESIGN** JORRE VAN AST  
ARCO, NETHERLANDS

The Trestle table is essentially a nod to the classic trestle base, recast to create a generously proportioned and versatile table that will complement any living area or workplace. The two-part table top is supported at each end by a three-legged aluminium trestle, the height of which can be adjusted. This versatility allows the table to be easily transported, set up and adapted to the height of the specific user.

As with other models from the company's Local Wood range, the oak for the table top is sourced from the area around the Arco factory in Winterswijk, Holland, close to the border with Germany. Trestle is available in a range of sizes to suit dining, meeting and conference applications.

### PRICING

\$9810 — \$15640 Trade pricing ex GST  
Min = entry level, max = premium finishes
