

Twist

DESIGN BYKATO
CANE-LINE, DENMARK

Twist is an elegant, decorative and practical collection of tables made for both indoor and outdoor use. The duo behind the design is byKATO, known for their modern and detailed design and craftsmanship of high quality. The Twist Occasional Tables are the perfect addition to the lounge environment or as a small side table to the favourite outdoor space.

Twist can stand alone, or be combined in a cluster, as the tables are of different heights and can fit under each other. Twist is made of a lightweight frame in powder-coated aluminium and a table top in either Cane-line HI-Core, ceramic or compact laminate (HPL). Twist is easily cleaned with a damp cloth.
