

U

laCividina

DESIGN LANZAVECCHIA + WAI
LACIVIDINA, ITALY

U is an elegant collection of tables that feature a distinct U-shaped support whose soft curves also inspired the rounded corners of the table tops. The most striking quality is the architectural yet light appearance: U tables have a monolithic feel to them but when they are viewed from different angles can have a lightweight look, with a clean-cut, graphic styling.

The tables in the U collection can be used individually or as part of a set. Their sculptural appearance and minimalistic form are the perfect accompaniment for a variety of settings in both contract and residential markets.

All U versions are constructed from 100% steel or a steel and timber combination and come with a bent aluminium U-shaped element. Available in various heights and sizes, U tops come in three simple shapes: circular or square and rectangular with rounded corners.
