

Waves

laCividina

DESIGN CONSTANCE GUISSET
LACIVIDINA, ITALY

Eye-catching, modular and versatile, Waves is a collection of poufs inspired by the sea and the soft, gentle ripples running along the surface of the water. The creative vision of French designer, Constance Guisset, who is renowned for her ability to conceive products with bold shapes and fun colours that are capable of adding a sense of verve and harmony to all public and private settings.

Taking inspiration from the paintings of the American artist Georgia O'Keeffe, Waves calls to mind natural landscapes with an endless array of natural forms, gentle lines and rich colours. Waves poufs are available individually, in a range of different shapes and sizes or in a selection of modular compositions. They can be easily joined together with a magnetic connection hidden inside the structure of each pouf.
