DESIGN TOM FEREDAY
SWISS DESIGN, AUSTRALIA

The Wes collection by Tom Fereday for Swiss Design is a study in sculptural minimalism and artisanal craftsmanship. Inspired by the distinctive visual style of director Wes Anderson, the range merges traditional upholstery techniques with contemporary design sensibilities.

Developed over more than a year, each piece is meticulously handcrafted over a uniquely designed timber frame, resulting in seamless upholstery from every angle. Contrasting piping accentuates the soft forms, adding vibrant colour accents that highlight the collection's elegant contours.

Constructed entirely from eco plywood and finished with solid Ash legs, the Wes collection includes armchairs, lounges (convex and angled), and ottomans, available in various sizes and finishes. Upholstery options include a range of materials, such as leather, allowing for customization to suit diverse interior settings.

Designed and made in Australia, Wes exemplifies honest design, celebrating materials and manufacturing processes to create enduring pieces that connect with people through natural materials, tactile finishes, and innovative design.
